Record Attendance At Local Schools For The Fall Term

When the Didsbury public and high schools opened on September 1st for the fall term, there was a record enrollment of 361 pupils, compared with 330 at the end of the last term, and while being accommodated, the junior and senior high school rooms are overcrowded.

Of the 361 pupils attending school at Didsbury, 113 are from outside the boundaries of the Didsbury School District.

Mr. E. T. Wiggins is principal of the Didsbury school, with the following teachers on the staff:

Grade 1, Miss C. Wilson; grade 2, Miss M. Schafer; grade 3, Mrs. McMillen; grade 4, Miss L. Sore; grade 5, Mrs. G. Thring; grade 6, Miss C. Wise; grade 7, Miss Q. Ford; grade 8, Mrs. Banta; grade 9, Mr. V. Rose; grade 10, Mr. Herb Stiles; grade 11, Miss E. Willison; grade 12, Mr. W. Stauffer; shop teacher, Mr. Key-Jones; home ec. teacher, Mrs. Kinnert.

When the schools were built pro-

vision was made for 28 pupils in each classroom and 16 in the grade 12 room. With the increase in population and the desire for more pupils to complete high school, the junior and senior high school rooms have more pupils than the capacity of these class rooms. Apart from this, in some high school subjects as many as 50 pupils are registered, which is many more than can be properly supervised.

Following is a comparison of the high school students attending Didsbury school, with the number attending high school at Olds: Didsbury—Grade 9, 35; grade 10, 14; grade 11, 33; grade 12, 20. Olds—Grade 9, 23; grade 10, 30; grade 11, 21; grade 12, 22.

Mr. Wiggins, principal of the Didsbury schools, says that, "as far as the staff is concerned we shall do the best we can, but under the circumstances the high school students are not getting a square deal."

Big Number Is Lucky One for Girl Refugee

Twelve-year-old Dace Epermanis (holding flowers, left picture) gets a special send-off at Bremerhaven, Germany, when records of the U.N. International Refugee Organization (IRO) disclosed that she was the 150,000th displaced person to be admitted to the U.S.A. under its DP law. Her mother and father, leaving an IRO camp with Dace for their new home, stand with her in front of the sign. At right, Dace is shown aboard an IRO-chartered ship just after she first saw the towering buildings of New York. Large numbers of refugees from European lands have also received new homes in Israel, Australia, the United Kingdom, Canada, France, Argentina and Brazil.

20 Pupils Attending School at Westcott

School reopened at Westcott on September 1st with Mrs. Ethel Kouschik in charge. We understand there are twenty pupils, six of whom are taking Grade 9 this year. One beginner, Frank Murphy, and two new pupils, Lila and Jean Thomas, whose parents have just moved onto the farm purchased from J. F. Moir.

Mr. and Mrs. Clarence Reinhardt, who have been away on a holiday in B.C. and U.S.A. all summer, returned home last week.

Mr. Fred Metz was a visitor at the Herbert Goetjen home on Friday last when he was out west of town on municipal business.

Miss Beulah Kinkaid, Raymond Vipond and Don Kouschik, last year's Grade 12 students, are attending school in Didsbury.

Old Jack Frost has shown up everywhere the last few mornings in this vicinity and by the feel of the weather we're so lucky it's not snow. Farmers have been heeding the warnings and cutting crops quite green. Nevertheless, a lot of grain is still standing and it is almost certain to be damaged by the frost now.

Leslie Goetjen accompanied Ken Papke and Bob Fulkert of Didsbury to Stettler on Sunday last. Mr. Wilbert Berscht spent Sunday at Nanton, visiting his sister and brother-in-law, Mr. and Mrs. Riley Moon and family. Mr. and Mrs. J. Nelson of Didsbury accompanied him on the trip.

Representatives of a fire extinguishing firm in Calgary were at Didsbury Thursday, and in the evening they demonstrated their products at the Atlas Lumber Yard corner, where a large crowd gathered to watch the performance.

Marylou Hosegood Heads Rugby Bluebells

The annual meeting of the Rugby Bluebells was held last Saturday at the home of the leader, Mrs. Bessie Hosegood. Roll call was answered with a "means of making money", and plans were made to hold a home cooking sale in Didsbury on Saturday afternoon, October 21. Members brought pressed flowers and Vera Betus and Ethel Blain will put them in the scrap book.

The following officers were elected: President, Marylou Hosegood; Vice President, Ethel Blain; Secretary-Treasurer, Maxine Hosegood; News Reporter, Vera Blain.

The meeting then closed with the singing of God Save the King, after which the members went outside and played games and then enjoyed delicious hot dogs on the lawn.

Members are asked to bring program books to the next meeting, which will be held at Marylou Hosegood's home on October 14. Roll call will be "what you did on your vacation."

Ken Morris Speaks To Lions On Recent Trip

At the Lions' meeting last Thursday evening Ken Morris gave a very interesting address on his recent trip to Great Britain as one of the three Alberta boys selected for the Garfield Weston tour.

Ken's audience followed him with keen interest in his experiences from the grounding of the Franconia in the St. Lawrence, his T.C.A. flight over the Atlantic, his entertainment in many parts of England and Scotland, his meeting with Anthony Eden, his glimpses of the King and Queen, and many other thrilling episodes of the tour.

As one of the fifty Canadian boys selected for the tour, Ken brought home to Didsbury and to himself, it is hoped that at some future time others will have an opportunity to hear him describe the trip again.

Rugby W. I. Members Win Conference Prizes

Owing to the Conference being held August 3rd, the usual Rugby W.I. meeting day, no regular institute meeting was held in August. However, at the September meeting Mrs. Thompson, the delegate, gave a report on the Conference, at which Rugby received the following prizes: third problem, 1st Mrs. Scott; time saver, 1st Mrs. H. Hosegood; socks, 1st Mrs. Hogg; buns, 1st Mrs. P. Hosegood; plate of candy, 1st, and sweater 3rd Mrs. McNaughton; infant's knitted outfit, 3rd Mrs. Hogg; dinner cloth, 3rd Mrs. Oliver; home canning 2nd Mrs. Scott.

The September meeting was held at the home of Mrs. L. Krebs with an attendance of 14 members and two visitors. After a short business session Mrs. Thompson gave her report. Then Mrs. A. Blain took up the afternoon topic, "Citizenship," following this up with a contest along the same lines. This was won by Mrs. L. Krebs and Miss Jean Krebs.

Elections were then held for new convenors for the different topics, and the meeting closed with the National Anthem, followed by lunch.

The October meeting will be held at the home of Mrs. Thompson.

Didsbury Is Fourth In Predator Campaign

According to figures released by George Spargo, secretary of the Alberta Fish and Game Association, the Didsbury Fish and Game Association placed fourth in the province in the predator campaign.

Viking was first with 16,763; Calgary second with 13,708; Red Deer third with 13,664; Didsbury fourth with 7,182; Olds fifth with 7,115; Vinna sixth with 6,722; Innisfail seventh with 5,007, and Lacombe eighth with 5,008.

Total number of crows, magpies, ewls and hawks taken during the spring and summer campaign was 151,350, and over \$10,000 was paid out in provincial government bounties.

FIRST NEW WHEAT

E. W. White delivered the first load of new-crop wheat to Didsbury on Saturday, Sept. 2, and the grain was bought at the Alberta Pacific Elevator by Ed Bohr. Mr. White also delivered new-crop barley the same day.

Fred Dedels Wins Truck Rodeo Contest

Fred Dedels of Banff, and formerly of Didsbury, won first in the tractor-trailer class at the Truck Rodeo held on Saturday at Currie Barracks in Calgary. He received 329 points out of 350, the highest number ever obtained in rodeos in Canada.

Second prize in this class went to Dennis Kohn of Calgary, with 318 points.

Both Mr. Dedels and Mr. Kohn won the right to represent Alberta in the national finals to be held in Toronto in October.

Fred Dedels operated a truck in Didsbury for several years for Cathness Cartage, and had the reputation of being one of the best truck drivers on the road. He left Didsbury about three years ago to operate a truck for Mr. Peter Waldin on the Calgary-Banff run.

GOOD APPLE CROP AT LADNER

In renewing her subscription to The Pioneer Mrs. Erven Rodney of Ladner, B.C., enclosed a note saying they look forward to the home-town paper every week, which arrives every Saturday morning. There is a good apple crop at Ladner, but peaches and plums are not as plentiful this year. In closing Mrs. Rodney and Erven wish to be remembered to their many old friends in the Didsbury district.

On September 3rd Mrs. Boles and Miss Helen Ferguson motored to the Shannon road camp at Castor to visit Ron Gordon. Ron said the Shannon crew intend grading and graveling No. 12 highway to Castor.

Julland Beef Calf Club Reorganized

A splendid turn-out of former members and interested visitors were present at a reorganization meeting of the Julland Beef Calf Club held recently at the Lone Pine Hall. As there were not sufficient members in the Allingham-Sunnyslope Club to form an active organization, those members were present and decided to join the Julland Club.

Newly-elected officers included: president, Jim Dundas; vice president, Lois Shells; secretary, Gladys Shells. These officers will make an excellent group to guide the club this year, and with an expected membership of 20, the Julland club will be one of the largest in the district.

Mr. Sandy Brander will continue to act as leader, and the former leader of the Sunnyslope club, Mr. Allan Keiver, was invited to join the adult committee, which assists the club.

The next meeting will be held in the Lone Pine hall on the evening of September 29, when registration of new members will take place, and to ascertain what will have calves to feed.

Future meetings will be held at the homes of the members on Saturday afternoons.

Lois Shells was invited to give a talk on her work at the Olds School of Agriculture. She won this scholarship for efficiency in club work.

Mr. McPhail was present and gave a talk on the Farm Home Improvement and Soil Contest sponsored by the Olds Agricultural Society. Eight farmers around Olds qualified for prizes. From now on annual improvements made in the farm, and plans for future improvements, will be taken into consideration when awarding the prizes. Anyone can enter, said Mr. McPhail.

Prize money for feed reports was given out. Mr. Bruce Shells donated the sum of six dollars for showmanship prizes at the sale last spring, and this was also presented to the winners.

HARVESTING IN FULL SWING

Harvesting is now in full swing all over the district and farmers apparently need not wait any longer for the grain to ripen. The heavy frosts the past few nights have done about all the damage possible. The frost was general and all tender plants and flowers were ruined after the 12 degrees of frost reported Monday night.

Mr. and Mrs. Norm Mashinter and sons, Al Mack and Howard Berscht of Calgary, and Mrs. Lou Matthe of Cranbrook, visited on Sunday with Mr. and Mrs. Ed Berscht and Mr. and Mrs. Wright.

Factors Affecting Frost Damage to Grain Crops

Three factors determine the extent of damage done to wheat by frost, after heading and before it is matured. These are:

The extent depends on the stage of development of the wheat when frozen; the degree of frost or severity; the duration of exposure.

When the grain is relatively matured the grade is lowered but the yield will not be reduced if the wheat has reached the stiff dough stage. After the dough stage, four degrees of frost will damage the wheat sufficiently to cause a reduction of one to three grades, as compared with unfrozen samples.

Wheat exposed to 10 or 15 degrees of frost will be severely damaged even though it has been ready to cut for several days previously. Longer exposures would cause greater damage. Germination is not reduced unless the frost is relatively severe and the grain less matured than the early to medium dough stages. — Market Examiner.

WEST NOTES

Mr. and Mrs. Les Hampton of Edmonton visited at the Bantling home on Friday, going on to Calgary Saturday. They were accompanied to the city by Mr. and Mrs. L. Bantling, and returned Sunday.

Mr. and Mrs. W. Thompson of Saskatchewan are visiting with Mr. and Mrs. O. Thompson.

Mrs. Bob Springy is visiting at Edmonton this week.

Mr. and Mrs. Arnold Hogg spent Sunday with Mr. and Mrs. C. Wilson west of Edmonton.

The temperature dropped to 20 degrees above zero on Monday night, blackening gardens and destroying hopes of late green grain from thinning.

Mrs. O. Thompson, Mrs. O. Krebs and Jean visited with Mr. and Mrs. A. L. Hogg on Friday afternoon.

Ed Rouleau Wins Gun Club Trophy

Only nine members of the Didsbury Gun Club turned out to the trophy shoot on Wednesday afternoon, September 6, and due to a windy afternoon the scores were not up to par.

Fifty targets were shot and Ken McCoy and Ed Rouleau tied for top honors with 28, and to break the tie an additional 25 targets were shot, when McCoy broke 14 and Rouleau 15, to give the latter possession of the trophy.

Following are the scores: First Round, Ken McCoy 19, John Polmann 19, Bill Banton 15, Ed Rouleau 15, Al Studer 13, Sam Thompson 13, Jim Cathness 11, George McDonald 11, Len Berscht 8.

Second Round—Rouleau 23, McCoy 19, Polmann 14, Cathness 12, Studer 11, Banton 11, McDonald 11, Berscht 8.

Municipal Road Grant To Be Spent On Various Projects

At the regular meeting of the Council of the Municipal District of Mountain View No. 49, held in Didsbury on Tuesday, September 5, a communication was read from the Department of Public Works advising that an additional grant of \$8260 was available for road work on a 40-10 basis, and Council decided to spend the grant as follows:

Cutting down hill and graveling north of section 26-28-29-4; grading west of sections 2 to 35-28-4-5; grading through section 27, west of section 26 and south of section 26-28-29-4; grading east of sections 6 and 7 and south of section 6-11-1-1; grading south of sections 15 and 16-31-1-5; grading west of sections 2 to 11 and 14-32-4-5; and grading south of section 25-33-27-4.

Bruce Fox, councillors Barnall and Niddrie, and secretary-treasurer A. Brusso were appointed delegates to attend the annual municipal convention to be held in Calgary on November 22, 23 and 24.

A communication from the P.E.A. board advised that Paper 31, Page 1, which was re-checked for 1949 assistance and would not qualify.

Another communication from the P.E.A. branch asked for a report on estimated yields for 1950. Arrangements were made to provide three street lights for the Hamlet of Madden.

Approval was given to the plan for a survey of a sub-division on legal sub-division 4 of section 5-33-1-5.

Council opposed granting of a lease by the Department of Lands and Forests for road allowance east of section 24-28-28-1, which is east of Crossfield.

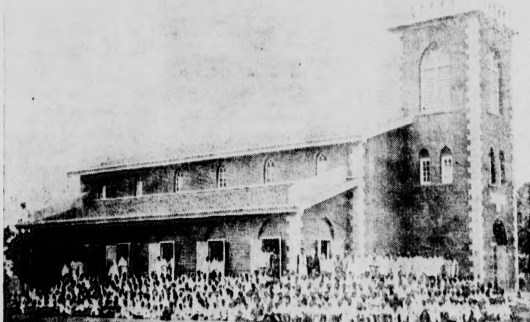

The old road diversion on section 26-29-28-4, south-east of Cartstair, was cancelled.

It was decided to rebuild, using larger culverts, the present road west of sections 27 and 34-31-4-5, which is north of Byrt's store at Elkton.

A decision was made to alter the location of the diversion in rebuilding the road west of section 2-28-1-5, on the Cochrane road.

The necessary resolution was passed to proceed with the tax sale which will be held early in December.

Accounts and pay sheets completed the business of the meeting.

SEVERAL HUNGRY LEPERS begging food in 1902 near Champa, C. P. India, provided the tug on the heart of a missionary that eventuated in one of India's three largest leprosantries. Pictured above are the lepers served by the Bethesda Leprosy Home, a work established by the late P. A. Baker and funded and carried on by the cooperative efforts of the Mission to Lepers and the General Conference Mennonite Church, which is observing the golden jubilee of its mission work in India at its triennial conference at Freeman, South Dakota, August 30.

FORMER DIDSBURY GIRL MARRIED IN SEATTLE

University Lutheran church in Seattle was fragrant with stocks, mums and white gladioli for the wedding on August 29, uniting Margaret Eleanor, only daughter of Mr. and Mrs. James W. Phillips, Young street south, Chilliwack, and Charles Edwin Wilson, only son of Mr. and Mrs. Earl E. Wilson of Seattle, Wash.

The bride is a graduate of the University of Washington and a member of Lambda Kappa Sigma, pharmacy honorary. She is a former Didsbury girl, having attended school here prior to leaving about ten years ago with her parents.

The bride was given in marriage by J. C. Morris and her gown was of ivory satin, designed with Victorian neckline edged with applied flowers and seed pearls. Her bouffant skirt ended in a cathedral-length train misted over with a veil attached to a satin cap. A shower bouquet of white roses and stephanotis completed the lovely picture.

Miss Jean Stanford, Chilliwack, was maid of honor and her cherry red velvet dress was in vivid contrast to the bridal gown. Gathered skirt and basque front were features of her dress and she carried creamy white gladioli.

Dr. L. David Cowie performed the ceremony and soloist was Glen Scarvie. Miss Kilgore was the organist, and ushers were James Eckman, Charles Olson, Richard Williams and Edward Nachtey.

Following their wedding trip to Vancouver Island, Mr. and Mrs. Wilson plan to reside at Kirkland, Wash.

BIG WHEAT FIELD

The Blood Indian reservation is a tract of over 1,000 square miles of land lying southwest of Lethbridge in Southern Alberta. During the war a substantial acreage lying approximately in the central part of the reservation, was used as a bombing practice range. About two years ago a group of 31 farmers leased nearly 38,000 acres of this bombing range from the Blood Indians and broke most of it up for grain production.

They have formed an organization known as the Blood Farmers' Association. William Ogden is the secretary-treasurer.

This year about 30,000 acres are under crop in this area and prospects, according to the Lethbridge Herald are for an average yield of around 18 bushels to the acre giving total estimated production of 540,000 bushels. A light frost occurred in the region on the night of August 18 but the grain was so nearly ready for harvest that it is believed little damage resulted.

The farming area is about 20 miles southwest of Lethbridge but the St. Mary's River intervenes and a roundabout way of some 56 miles was the only road route between the wheat fields and that city. To cut down the distance to 20 miles the farmers had a bridge built across the St. Mary's River.

To accommodate the flow of grain from this area Alberta Wheat Pool Elevators have built a country elevator at Lexicon, more commonly known as Stewart Siding, about 10 miles from Lethbridge on the Cotts branch line. This elevator is a new type of construction. It is a 60,000 bushel structure with a 50,000 bushel annex built into it, the whole being on one great concrete slab and operated as a single unit with a total capacity of 110,000 bushels. The structure will be completed in time for harvest and E.F. Bonin will be the agent. Mr. Bonin has served as agent at Chin for many years.

WHERE THEY GROW LARGE

PESHAWAR—Leopards at a height of 17,000 and frogs "as big as a small suitcase" in mountain lakes were among the unexpected animal life on 25,263-foot Mt. Irish Mir in the Hindukush range of the Himalayas. Professor Anne Naess of Norway gave these details on Peshawar before members of the Norwegian expedition which conquered the peak.

Highlights of The
Recent Federal Budget

In order to provide funds for
defence purposes the Canadian
Parliament has brought down an
emergency budget which calls for
increased taxes on many items,
and below is a summary of these
additional taxes:

Personal income taxes unchang-
ed (for the present).
Corporation income taxes in-
creased five percent, retroactive to
September 1, 1950.

Liquor taxes increased from \$11
to \$12 a proof gallon, effective
immediately.
Tax on malt beer increased from
16 to 21 cents a pound, effective
immediately.

New 30-percent tax levied on
soft drinks, candy and chewing
gum, effective immediately.

Tax of 50 cents a pound levied
on carbonic acid gas used in four-
tain drinks, effective immediately.
Excise taxes increased from 10 to
15 percent on motor cars, tires and
tubes, effective immediately.

Excise tax increased from 10 to
15 percent on variety of semi-
luxury goods, effective immediately.
Excise tax of 15 percent levied
on variety of electrical household
appliances, effective immediately.

Excise tax of 15 percent levied
on motorcycles and similar motor-
driven vehicles, effective immedi-
ately.

Excise tax of 15 percent levied
on firearms and ammunition, ex-
cept for military and police use,
effective immediately.

Excise tax of 15 percent levied
on golf clubs, golf balls, fishing
rods and reels, effective immedi-
ately.

No change in rate or application
of eight-percent sales tax; no re-
vival of excess profits tax; no in-
crease in tobacco taxes.

A surplus of \$15,000,000 is ex-
pected with revenues estimated at
\$2,639,000,000 and expenditures at
\$2,654,000,000.

Yield from new taxes is esti-
mated at \$38,900,000 for remainder
of current fiscal year ending March
31, 1951; \$189,500,000 over a full
year.

RURAL ELECTRIFICATION

The rural electrification setup in
the United States added two and
one-half million customers during
1947. There was an average of five
service for each mile constructed.
In Ontario there are six rural ser-
vices per mile, while in Nova
Scotia, as a condition precedent to
consideration of rural extension,
there must be assurance of a mini-
mum average of four farms seek-
ing service for each mile of the
project. In Alberta the average is
a fraction over one customer per
mile of rural line. If Alberta had
five farm customers to the mile of
line, the average cost of rural elec-
trification would be very reason-
able.

CHRISTIAN SCIENCE

"Then said David to the Philis-
tine, Thou comest to me with
sword, and with spear, and with
shield; but I come to thee in the
name of the Lord of hosts, the God
of the armies of Israel, whom thou
hast defied." (1 Samuel 17: 45).
"Spirituality lays open siege to
materialism. On which side are we
fighting?" (Science and Health
with Key to the Scriptures, by
Mary Baker Eddy, p. 216). The
Sunday Lesson Sermon on "Matter"
in Christian Science churches is
composed of readings similar to
the foregoing.

EVANGELICAL CHURCH

Rev. A. J. Grams, Pastor
Sunday Services: 10:30 a.m., Wor-
ship service. 11:30 a.m., Sunday
school.

7:30 p.m., evening service every
Sunday with the Youth Fellowship

evening service.

Wednesday evening, 8:00 p.m. —
Bible study and prayer meeting.

Thursday evening, 8 p.m.—Choir
practice.

Alternate Sundays at Bethel at
2:00 p.m., and every Sunday at Jut-
land at 2:00 p.m., with Sunday
school followed by worship service.
The pastor and congregation ex-
tend a cordial invitation to every
one to worship with us. "Come and
we will do thee good."

REDEEMER LUTHERAN CHURCH

"The Church of the Lutheran Hour"
REV. E. B. FOX, Pastor
Divine Service on Sunday at
10:30 a.m. Sunday school and adult
Bible class following the service.

WEDDINGS

KONSCHUH—COOK

At Harman in the Church of
the Nazarene, a very pretty wed-
ding was solemnized when Ruth
Elizabeth, second daughter of Mr.
and Mrs. John Cook, became the
bride of Mr. Lester Eugene Kon-
schuh, eldest son of Mrs. K. Kon-
schuh of Elkton.

Rev. Wm. Barber officiated at
the ceremony which took place at
3 p.m. Wednesday, August 30.

Given in marriage by her father,
the bride wore a floor-length gown
of French lace and crepe back
satin, styled with sweetheart neck-
line of lace inset and studded with
blue rhinestones, a fitted bodice
and laceilly point sleeves. A floor-
length veil was held by a lily of
the valley corsage, and the bride
carried a large bouquet of arti-
ficial red roses with rose buds
hanging on narrow ribbon floor-
length streamers. Her only jewelry
was a rope of pearls, the gift of
the groom.

Attending was Miss Alice Cook,
sister of the bride, who wore a
nylon floral marquisette over pink
tulle, fashioned with fitted bodice,
full length bell sleeves and floor-
length bouffant skirt. She wore a
halo of ice box flowers of pink
and yellow, and carried a bouquet
of artificial yellow roses with buds
hanging from streamers to floor
length. Her jewelry was three
strand blue crystals, a gift of the
bride.

The groom was attended by his
only brother, Mr. Robert Konschuh.

During the signing of the regis-
ter "A Wedding Prayer" was beau-
tifully sung by Mrs. Clare Herron,
accompanied on the piano by Mrs.
Wm. Barber, who also played the
wedding march and the prelude of
nymphs.

The ushers were Mr. Jerry Er-
hardt and Mr. Charles Roberts.
For the happy occasion the
bride's mother was charming in a
white and white floral crepe after-
noon dress with white accessories.
The groom's mother chose a grey
floral Benberg sheer afternoon
dress with wine accessories, which
was very becoming.

A lovely lawn reception for 65
guests was held at the home of
Mr. and Mrs. John Cook. The
bride's table was centered with a
beautifully decorated three-tier
wedding cake, and the delicious
lunch was served by Doris Con-
way, Mrs. R. Luft, Frances Webb,
Mildred Betus, Jean Krebs, Ruth
Roberts and Deiores Hayes.

The young couple were the re-
cipients of many useful and beau-
tiful gifts.

A huge tailored suit with pink
blouse, pretty pink hat, matching
gloves, purse and pink satin san-
dals, was the bride's travelling en-
semble.

The bride and groom motored
to Banff for a short honeymoon
and will take up residence in Red
deer upon their return.

FALLEN TREE CAUSES
POWER SHORTAGE

On August 4th, Canadian Utili-
ties Limited made the following
report which no doubt applies as
well to Calgary Power, and other
power companies. There is no
doubt that care should be taken
when doing any type of work in
the vicinity of high voltage power
lines.

"Yesterday, there was a break in
Canadian Utilities Limited main
transmission lines from their plant
at Vermilion to Lloydminster, at
a point just a little east of Kisbey.
This caused a severe interruption
in service in the territory between
these points and also to the north
in the Clondonald area. Most se-
riously affected was Lloydminster,
as the town, its refineries, and the
adjacent oil fields were without
electric energy for about two hours.
"Officials of Canadian Utilities
stated that the line-break was the
result of careless land clearing op-
erations in which a tree about ten
inches in diameter was allowed to
fall on the power lines and that
this was something that would
never have happened had normal
precautions been taken.

"Apart altogether from the in-
conveniences and the monetary
loss such a breakdown occasions
their customers, the Company was
much more concerned about the
continuation of such dangerous
practices which, in this instance,
could easily have cost the life of
the man involved. If trees close to
transmission lines must be remov-
ed, the proper course to follow is to
advise the Company or any of its
employees. This advice to the com-
pany, following its usual practice,
will send a representative to su-
pervise the removal without cost to
the farmer, without danger to any-
one, and without interruption of
service."

MAGIC MONEY FOR A MAGIC AGE

It is to be hoped that our legislators at Ottawa give thorough consideration to the report recently presented by the committee on old age pensions.

Far from being the "pay as you go" contributory pension system which has been advocated and promised, the favored system of the House of Commons committee provides for financing of old age pensions on a triple base.

There would be a 2 per cent tax on payrolls to be paid by employers, a 2 per cent extra levy on personal incomes of all present and a lot of new income tax payers as it is proposed to lower tax-exempt incomes for this purpose, and a vote of sixty-four million dollars or about \$5 per capita out of general revenues.

Most Canadians appear to be in favor of some sort of old age pension plan under which those who either do not have the will power or the economic means to save for themselves are made the beneficiaries of state aid.

It was hoped, however, by many Canadians that the new plan to be adopted at Ottawa would put old age pensions on a sound economic basis under which the pension to be paid out would relate directly to the taxes to be paid in through weekly, monthly or annual deductions.

The 2 per cent tax on payrolls is an easy way of collecting money insofar as the Government departments are concerned. It has little equity in it, however, or little business sense. The 2 per cent tax on payrolls will merely mean an increase in the cost of all consumer goods and services. It will not mean any further saving by individual citizens but rather a confiscation of a portion of their earning power through an increase in the cost of things they have to buy.

Furthermore, by taxing payrolls on the percentage basis rather than making each person subject to a flat equal deduction for pensions, the House of Commons committee would disregard the fact that the amount of money to be paid to old age pensioners is the same, irrespective of their incomes. In other words, the lower income groups will again depend on the "charity" of their more fortunate fellows.

If we are to have a national old age pension plan it should be removed entirely from the category of charity. Taxation through payroll levies should not be misnamed "contributions". The only way we can achieve a contributory system is by adopting equal individual payments out of earnings as is the British method.

Agricultural SERVICE BOARD NOTES

W.K. Snyder, Field Supervisor

Many farmers spend huge sums of money every year in an effort to rid the land of weeds. Then when harvest comes around they allow the combine to scatter more weeds to build up work for the future. Most combines are equipped with cleaning devices to separate the weed seeds from the grain. The seed should be collected in tight bags and emptied into secure buildings where it can be ground and used for livestock feed. If the weed seeds are of no value they should be destroyed by burning.

2.4-D On Thistles

During the past week we were called out to several widely separated farms where 2.4-D had been used on Canada Thistle and the results were not quite satisfactory. In the first case while many thistle plants had been stunted, the plants were still green. In this case the rate per acre of 5 oz. of acid was too high when sprayed. Some plants which were up to 18 inches high had gone to bloom, but the stem and leaves to a height of 12 inches were brown and showed little life. The conclusion here was that the nozzles on the sprayer were not high enough so that the fluid from the nozzles was permitted to meet above the higher plants and thus completely cover all the thistle plants with the spray.

Any person who has not had satisfactory results with the use of 2.4-D should not be too hasty in condemning it as a slight error in human judgement can easily account for an unsatisfactory kill.

THANKSGIVING DAY SET FOR OCTOBER 9

The second Monday in October—October 9—has been set as the date for Thanksgiving Day this year.

Thanksgiving Day is one of the statutory holidays which is fixed each year by order-in-council.

Letter To The Editor

To the Editor, Didsbury Pioneer

In the Didsbury School a very serious situation, foreseen and talked about for over three years, has now arrived. The breaking point has now been reached. The crisis is here and now, not next year or the year after, but right now, this week, with your children and mine.

As Principal of the Didsbury School and a ratepayer of the Didsbury District it is my duty to tell the people of Didsbury and community that in our school this year our children are not going to get a fair deal, they are not going to get as good an education as they did last year; they are not going to have an opportunity equal to that of several years ago.

The reason for this is simply that there are too many children in our school, far too many for the limited accommodation at our disposal.

Grade seven numbers thirty-five in a room built for twenty-eight. Four of the thirty-five are sitting on a long plain bench at a table twenty-eight inches high. The bench has no back. Try sitting on one like it for five and one-half hours. Your children are sitting on it today.

The Grade eight room contains a piano and its full quota of students.

Grade nine, thirty-five of them, occupy a room also built for twenty-eight. Your Grade nine students learn typing in a room large enough for a good sized pantry. Typing appears on our time-table seven times in a week when three should be enough; four periods of straight recitation for the teacher when he could, under other circumstances, be teaching another complete subject instead.

The Grade ten room now contains forty-four desks to accommodate up to fifty pupils. It too was built for twenty-eight. For example we will take the subject of Physics I. It is taught only to A and B students but the class is exactly fifty as of today. By the time you read this it will likely be fifty-three. Some of these students will either have to stand up, or sit two in a seat for forty minutes a day, five days a week. During that forty minutes, if the teacher did not demonstrate or lecture at all, each pupil could receive nearly forty-eight seconds of individual assistance if the class remained at only fifty. If half the teacher's time is taken with the lesson each pupil could count on receiving approximately twenty-seconds of extra help. When assignments are handed in for correction the teacher, in his free time after supper, might scan each assignment briefly in three minutes or a total of two hours and thirty minutes to correct one day's work on a subject.

A parallel case could be drawn for Algebra I, English I, Social Studies I, French I, etc. I hesitate to even think of the Automotives, Woodwork, Home Economics and Industrial Art departments under the pressure of these numbers.

The Grade Eleven room contains thirty-three. Grade twelve must be contained in half a class room because the other half is taken up

TRULY SAID

The ticking of the clock is one of the most important things in the world, for it marks the passage of time. It reminds us that another second, another hour, another day has gone. And yet, despite this constant reminder, most of us go along wasting our time, using it aimlessly, failing to get out of it either enjoyment of life or the satisfaction of accomplishment. We know that the opportunity which today presents will never be repeated, that Spring fades into Summer, and presently Winter comes, and we wake with a start to realize that another year has passed. Still we postpone the doing of things. There is plenty of time, we tell ourselves. That is the great fallacy. "The clock of life is wound but once."—Paul W. Litchfield

with the Chemistry and Physics Lab, tables and equipment. Twenty Grade twelve students now occupy this half classroom.

Please understand that I am not complaining from the standpoint of a teacher. This is not a teacher's complaint. It is a parents' complaint. You, the parents of the children in our school, should be concerned about the fact that your children are being crowded out of their only chance for a good education. You should know now that your children's education in every subject is going to be necessarily spread thinner than wartime butter.

Last June ninety-two Grade twelve departmental examinations were written by our students. The percentage of passes was 92.7. Also, last June thirty Grade nine students wrote examinations. The percentage of passes was 100%. There were no failures. But now we regret to notify you that we will assume no responsibility for poor results in Grade ten next June. We will do the best we can as we always have done, but under these conditions our best isn't going to be good enough.

In the past we have been justly proud of our school. For the numbers it was designed to house, it is as good as it ever was. But don't forget that the largest part of it was built when you were driving a horse and buggy and the newest part of it was built when a Model T was a fine automobile. Are you still using the same type of farm machinery that went with the Model T? Are you using the same type of household appliances, the same methods of power transmission, transportation and communication that went with the horse and buggy? If you expect your children and their teachers to drive down the hard-surfaced highway of modern education, then for the sake of all of our children, let us get our feet off the buggy dashboard into something more suited to the needs of 1950. We must have more accommodation for our Junior and Senior High School if the educational standards of the past are to be maintained.

Edgar T. Wiggins
Principal Didsbury School

Monitor PUMP JACK

• EASIER PUMPING
• QUIETER PUMPING
• MUCH LONGER LIFE

SILENT—The New Monitor is built like a fine auto... special gears, running in oil... plus positive lubrication to bearings... insure almost silent operation.

EFFICIENT—New engineering provides almost perfect balance on working parts, permitting new precision in bearings and gears at reasonable cost.

DEPENDABILITY—New positive oiling system assures bearing lubrication... especially designed to work even better in cold weather... to handle heavy pumping loads... day-in, day-out for many years.

\$74.00 (less motor)

IMPERIAL FUELS

When harvests are ready and time is short... remember... there's a dependable Imperial Oil agent in your locality. Call him when you need good harvest fuel... fast.

Remember, too... there's a dependable Imperial fuel specially designed to give top performance in any tractor or farm motor. Imperial fuels are built to keep motors purring... to give full, surging power. No stalling or coughing... no loss of power when the going is tough.

ESSO... for self propelled combines and high compression tractors... brings out the best from your motor.

ACTO... gives "all out" performance from medium compression tractors.

IMPERIAL Tractor Distillate... best for low compression tractors. Gives the same sturdy, dependable power.

See your IMPERIAL OIL AGENT

NOW! YOU CAN DO MORE THAN TALK ABOUT FREEDOM...

CANADA NEEDS MEN TO TRAIN AS FIELD GUNNERS IN THE ROYAL CANADIAN ARTILLERY

Defensively and offensively, artillery forms a solid backing in the operations of the modern army. Keeping pace with the speed and flexibility of the Canadian Army, it includes airborne and air transportable artillery and many other of the new developments of modern warfare.

There's important work for young men in the Royal Canadian Artillery. It calls for young men who are quick-thinking and physically fit.

YOU ARE ELIGIBLE IF YOU ARE —

1. A Canadian citizen or British subject.
2. 17 to 29 years of age.
3. Single.
4. Able to meet Army test requirements.
5. Willing to volunteer for service anywhere.

-: DISTRICT NEWS :-

WESTERDALE NEWS

Mrs. A. Jackson returned home from the Olds hospital on Friday evening.

Mr. and Mrs. H. Jackson, Barbara and Roger, motored to Lousiana on Sunday and visited with Mr. and Mrs. C. Farrant and Mr. and Mrs. H. Farrant of Rosedale, B.C. The latter are visiting at the C. Farrant home.

Ardith Stewart, Eddy Rowell, Dennis Herbert and Dale Bolton are beginners at the Westerdale school this term.

Frost has damaged numerous crops and gardens in the district. The extent of the grain damage will be revealed when threshing operations commence.

Mr. S. Jackson trucked a load of cattle to Calgary last Tuesday and returned home with a new Allis Chalmers tractor.

MOUNTAIN VIEW

Mr. Niels Nelson and Stella were Wednesday evening supper guests with Mr. and Mrs. Wm. Shultz and family.

Mr. and Mrs. David Pratt and family were dinner guests Sunday with Merle Siebert of Carstairs.

Mr. and Mrs. John Kimmel and son of Edmonton were weekend visitors with Mr. and Mrs. Walter Pratt and family.

Mrs. Doug Gooding is confined to bed for a month due to ill health and best wishes are extended to her for a speedy recovery.

Miss Peggy Fulkerth and her friend from Banff spent Sunday with Mr. and Mrs. Alfred Morasch. Retta Fulkerth was also a guest at the Morasch home.

Mr. and Mrs. Harold Swanson and family and Mrs. Emily Hunter spent Sunday afternoon with Mr. and Mrs. Lawrence Hunter.

Olwen Bittner cut the muscles in her leg on a barbed wire fence while on her way to school last Tuesday morning.

Mr. Harry Morasch, Mr. and Mrs. Stewart Tighe, Mr. and Mrs. Frank Berg and family, were all Sunday dinner guests with Mr. and Mrs. Adam Morasch.

Mr. and Mrs. Garnet Tighe and Agnes and Mr. and Mrs. Rouleau and Winona were on a picnic in the Sundre district on Sunday.

Mr. and Mrs. Thomas McCaig of Calgary spent the weekend with Mr. and Mrs. Grenville McCaig.

Mr. and Mrs. Rex Dawson and Karen were dinner guests of the latter's parents, Mr. and Mrs. Wm. Bruce on Sunday. Afternoon callers at the Bruce home were Mr. and Mrs. John Bruce and family and Mrs. Bussard and family, and Loleen Warren.

Mrs. Walter McCulloch, Mrs. P. Schumaker and Mrs. Art Gebers surprised Mrs. Otto Bittner last Wednesday afternoon on the occasion of her birthday.

Mr. and Mrs. Eric Atkinson and Mrs. Art Gebers visited Sunday evening with Mr. and Mrs. Alex Craig, north-east of Olds.

Mr. and Mrs. Orville McMan spent last Sunday afternoon and evening with Mr. and Mrs. Art Gebers.

Mr. and Mrs. Andrew Hansen were Sunday visitors at the Gebers' home.

South West Didsbury

Mrs. Geo. Meyer spent several days in Edmonton last week visiting her daughter and son-in-law and family.

Mr. and Mrs. Jack Edwards and family were Sunday dinner guests with Mr. and Mrs. Fred Reese and family.

Mr. and Mrs. Lester Miller were Sunday dinner guests with Mr. and Mrs. Fred Reese and family.

Mr. and Mrs. J. B. Hipkin and Patsy were Sunday guests with Mr. and Mrs. Dale Kimmel and family.

Mrs. S. R. Sherman and Jerry of Warner are spending a week with her parents and relatives.

Mrs. Louise Shantz of Calgary is visiting her brothers in the district, and with Mr. Geo. Dippel and family and Mr. and Mrs. R. L. Shantz.

Mr. and Mrs. M. Dippel and Carole were Sunday dinner guests with Mr. and Mrs. R. L. Shantz.

Mr. Ward Sherrick is on a gravel haul in the west district this week.

CANNED MILK FOR BELGIUM

Belgium recently has been buying considerable quantities of Canadian Evaporated Milk, the latest order being for 60,000 cases.

ZELLA NEWS NOTES

We all join in wishing a speedy recovery to Bill Grange who has been confined to bed for ten days with pneumonia.

Guests at the home of Mr. and Mrs. Bill Grange for the past week have been Mrs. Grange's mother and brother, Mrs. Law Sr. and Dr. Law of Edmonton.

Mr. G. A. Waldruff of Markerville is spending a few days at the homes of his sons, Arthur and Edward Waldruff.

Mr. and Mrs. Cliff Gibbs and David motored to Calgary on Sunday to attend a family reunion dinner held at the home of Mrs. Gibbs in honor of Mr. and Mrs. C. W. Gibbs of Vancouver, who left Monday by plane after a three weeks' visit.

Mr. and Mrs. E. Gaunce of Vancouver are occupying the teacherage at Inverness where Mrs. Gaunce is teaching.

A heavy frost hit the district Saturday and Sunday night doing considerable damage to late crops and gardens.

Miss Lilian Youngs of Edmonton has been holidaying at the home of her sister, Mrs. Jim Johnston, for two weeks.

Jim Johnston injured his leg when a binder fell on him and he will be laid up for awhile.

Darling, I've got it all figured out how you can buy a new suit. You can take the money we've saved for your life insurance policy. I'll have the agent charge the amount and deduct it from what they'll owe me when you die.

Grocer: "You want a pound of ochre? Is it the red ochre for painting bricks?"

Small Boy: "Naw! It's the tappy ochre what ma makes puddin' with."

If you keep looking back, you may go that way.

"Sorry, old man, that my hen got loose and scratched up your garden."

"That's all right; my dog ate your hen."

"Fine! I just ran over your dog."

Most of the stumbling blocks people complain about are under their hats.

The service manager, after a very trying day, was enjoying his pipe and reading the evening paper. His wife, who was working on a crossword puzzle suddenly called out: "Henry, what is a female sheep?"

"Ewe," curtly replied her husband, and that's how the riot started.

Student: "But, officer, I'm a college student!"

Officer: "You'll go to jail just the same . . . Ignorance is no excuse."

Infated: "Did you know that all of my family were great swimmers?"

Deflated: "Yes, I know, I heard your brother was killed in a dive in Canarsie."

Uncle: "You boys of today think too much about money. Do you know what I was getting when I married your aunt?"

Nephew: "No. And I bet you didn't either."

Stepping off the boat onto the shore of a tiny South Sea island, the missionary received a fine welcome from the natives. "Do you people know anything about religion," he asked the chief.

"Well," was the thoughtful reply, "we got a taste of it when the last missionary was here."

Oliver Wendell Holmes once mistook an insane asylum for a college. Realizing his mistake he explained to the gatekeeper and commented humorously: "I suppose, after all, there is not a great deal of difference." "Oh yes there is," replied the guard. "In this place you must show some improvement before you can get out."

—To All Midland & Pacific Grain
Co. Customers — The Midland is
paying a Patronage Dividend of 2c
per bushel on wheat and 1c per
bushel on all other grains. See
your agent, George Parsons,
and get your returns. 36-2p

Mr. and Mrs. Cliff Green and
Mrs. Ezra Berscht spent the week
end with Mr. and Mrs. Ed Berscht
and Mr. and Mrs. Wright.

Ab Hunsperger and George Law
have each purchased new Prefect
cars from Prevost Motors.

Frost was reported in several
parts of the district last week, par-
ticularly in the Fallen Timber
area. Friday night a light rain fell
in the Didsbury area but there
was not enough moisture to delay
cutting, which is now general.

Mrs. Boles and Helen Ferguson
motored to Royalties, Alta., on Sun-
day and were dinner guests of
Mrs. Jessie Blanchard. Mrs. Blan-
chard's son, Norman Thompson of
Longview, was also a guest and
he reported catching a 4 lb. gray-
ling, and a friend with him caught
a 1 1/2 lb. trout in the Highwood.

Fishing season for trout in this
part of Alberta closes on Friday,
September 15th. The late season
has also affected the grayling run
and so far these fish, which usu-
ally appear in our west streams
in large numbers, have not com-
menced their annual migration up-
stream.

**CANADIAN BACON SCORES
IN UNITED KINGDOM**

Canadian bacon was given the
highest rating in a test conducted
by a wholesale food firm in the
United Kingdom on the quality of
bacon from various countries. It
was reported in a recent issue of
the "Farmer and Stockbreeder" of
London.

The tests made by the British
firm were on the basis of a
shoulder measurement of not more
than two inches of fat. Rated on
a percentage basis, Canadian bacon
scored 90, Dutch bacon 77, Danish
56 and English bacon was only 19
per cent.

**Big Investment To
Handle Grain Crop**

Operations relating to the physi-
cal handling of the Western grain
crop were reviewed at the forty-
sixth annual meeting of the North-
West Line Elevators Association
held in Winnipeg recently. Mem-
ber Companies of the Association
operate 3,000 country elevators
located throughout the grain belt
of the prairies and terminal ele-
vators at the head of the Great
Lakes and on the Pacific coast,
serving 200,000 farmer customers.
During the year under review de-
liveries of various grains to coun-
try elevators totalled: wheat 317,
962,894 bushels; oats, 79,762,845
bushels; barley, 53,000,163 bushels;
rye 8,790,310 bushels; flax 1,514,190
bushels. The functions performed
by the member companies of the
Association is that of moving grain
from farm to terminals and con-
suming markets. Present day value
of plant and equipment employed
in this task and operated by the
member companies was estimated
at \$180,000,000.
